

Newcrest is committed to managing tailings storage facilities safely and responsibly

Caring
about people

Newcrest is responsible for designing, operating, closing and remediating its tailings storage and disposal facilities in a safe, socially and environmentally responsible manner. We are committed to:

- Complying with legal and regulatory requirements in connection with tailings storage and disposal facilities.
- Complying with the Global Industry Standard on Tailings Management.
- Protecting public health and safety.
- Responsible management to minimise harm to potentially affected persons and the environment.
- Allocating appropriate resources to meet our obligations.
- Implement a Tailings Governance system that enables the application of this Policy.
- Demonstrating these commitments through the actions of our employees, contractors, consultants and other relevant service providers.

Approved by the Board February 2021
